TED YAMADA-DESSERT

PRODUCT DESIGNER

Donji.Design | 310-487-3540 | TheodoreYD@gmail.com | San Francisco, California | linkedin.com/in/donji/

PROFESSIONAL OVERVIEW

Product Design expert with 8 years of experience in early stage startups, a Bachelor's in Design from SFSU School of Design and extensive experience across various tech industries, including AI and self-driving cars. Passionate about design strategy, and creating impactful products from concept to launch, with a strong focus on UX/UI design. Skilled in hosting design thinking meetings and going over strategy with cross-functional teams to deliver solutions that delight users. Adept in problem-solving, user research, and translating complex requirements into intuitive designs. Eager to contribute to and grow within teams that prioritize innovation and customer-centric products at both startups and established companies.
